Who we are

Omafin Corporation is a crypto currency auto-trading and investment platform that allows individuals and particularly crypto enthusiasts to buy any of its four (4) trade plans. In working towards dominating the crypto space, we have been able to create a safe space for both veterans and novices in crypto to trade proficiently without having to really do much.

At the helm of our trading are experts with 10+ years of experience in crypto trading; we also have employed the use of bots, arguably one of the most effective bots in the crypto space currently to function alongside our experts to track trades and faster effectiveness in the grand scheme of things. We boast of a broad range of knowledge and involvement in crypto. Through the exploration crypto over the years, we have been involved in basic trading; hodling; investment in early safe tokens (determined by a team of experts); mining; CFDs; NFTs; DeFi. We employed this broad approach to crypto so that we do not have any reason not to keep our words to our customers knowing fully well about the unpredictable nature of the crypto market.

Outside crypto, we are also into binary options trading, forex trading, brokering of stocks and commodities, real estate and large-scale agriculture. All these are done to ensure that losses are very minimal and the demand of every single investor is met.

Omafin Corporation is a progressive establishment with fore sighted and very experienced individuals at the helm of its affairs who have highlighted bitcoin as the future and heavyweight of the crypto market and we have gone on to provide/create a safe space for every individual regardless of your location and level of knowledge in crypto to take only from the benefits available in the market.

TRUST

Omafin Corporation

Through testimonials, Omafin Corporation have been proven to be one of the only few legitimate platforms existing in the crypto space. We have acquired every important certification required to prove our legitimacy and authenticity. We are duly registered under the German government and our operations are being regulated by the financial body of the EU and the German government. We operate in one of the safest spaces of environment to run a business and this has created a conducive atmosphere for our experts to be highly productive and deliver good results as promised to our investors. Losing funds is impossible with Omafin.

We understand that potential investors may have doubts about the legitimacy and authenticity of our company and businesses. We however encourage all to complete their research on Omafin Corporation and see for themselves why we have remained undefeated in the crypto market. Our headquarters is always open to all investor during working hours and with a customer base of over 750k, we can only go higher.

Omafin Corporation

AWFUL EXPERIENCES?

We are fully, aware of the illegitimacy and scam within the crypto space and we are deeply sorry for those who may have fallen victim to these scams. In our bid to curb the excesses of these platforms, we work with the European union agency for criminal justice cooperation (Euro just) to help identify these platforms and further expel them from the crypto space. In regards to this, our aim is to create a safe space where all and sundry can come in and create wealth without the fear of being dwindled and promoting the use of crypto currency largely in the crypto market.

www.Omafincorp.com

DEPOSITS AND WITHDRAWALS

Investors and prospective investors are allowed to make a deposit of whatever amount they can as it'll be added to their "Trading Wallet" which they can use to purchase a plan/activate a trade later on. kindly be aware that only deposits made using Bitcoin and USDT will be valid and approved. Customers who intend to deposit using USDT can do so through any of the following networks; BEP20, BSC and ERC20. for bitcoin, the network is bitcoin by default.

When making withdrawals or placing withdrawal request, customers are required to provide any of their bitcoin or USDT wallet address with any of the networks listed above and should please also indicate which wallet address they have provided as there is an indicator for that on the platform. The minimum amount for withdrawals is \$25. Withdrawal request below \$25 will not be approved and will be considered invalid.

Customers should please note that there is a withdrawal processing fee (WPF) for every withdrawal made by an investor which will be deducted from the amount requested for withdrawal. The WPF on every withdrawal is 5% of the amount requested for withdrawal; this means that a customer will only get 95% of whatever he/she has requested for withdrawal posted to his wallet.

WHY A WITHDRAWAL FEE?

The purpose for the withdrawal fee is simple, Bot Servicing. Every customer has a unique bot allocated to their accounts for trading purpose and these withdrawal fees are used to service these bots every time a customer makes a withdrawal to enable the bots continually perform at high speed and return accurate results.

REFERRAL COMMISSION

Omafin Corporation gives a referral commission which is 10% of the initial deposit made by any of an investor's downline. We encourage investors to share this project (Omafin Corp) with family and friends. Kindly note that referral commission are one-off bonuses for every referral that you have.

AUTOMATIC SYSTEM CONFIRMATION

A system has been put in place to automatically confirm deposits and withdrawals. This is to always ensure swift transactions with zero hassles. We understand the value of time and we are out to preserve its value and not diminish it.

SPECIAL PLANS/PACKAGES

Sides our three (3) basic plans which are the Standard, Intermediate and Premium plans, we have two other plans which are long term plans and allows for investors that prefer long term investments to explore the opportunity. These special plans offer more profits and security of funds over a longer period of time and we assure you, it's worth the wait. You will find out more about the special plans on our write up on 'Special Plans' explaining in detail exactly how they work.

About

Omafin Corporation is a company located in the heart of Berlin, Germany. It was established on the 1st of January, 2018 and began as a broker company that was initially exclusively into crypto currency trading. As expected, the demands of investors grew and we had to diversify by exploring other profitable investment opportunities to ensure that we meet every investor's demand and today, the company boasts of a customer base of over 750k active investors.

A project that began in a back office in Germany now boasts of its presence in the United States, Canada, Africa, United Kingdom, France, Switzerland, Eastern Europe and Asia.

Today, we boast of businesses and investments such as real estate and early safe tokens and our aim is simple, to ensure that there are zero losses for anyone who have chosen to explore the crypto world, new or old and to also promote the use of crypto currency largely in the crypto market.

The CEO of Omafin Corporation goes by the name Thomas Stoltenberg and the COO goes by the name Bastian Schweizer and they're both fully committed to the growth of Omafin Corporation and crypto currency generally.

SOCIAL MEDIA

In December 2021, we shut down our Facebook and Telegram groups respectively because they got infiltrated by scammers who posed as admins or high-ranking officials of Omafinc Corporation for the purpose of targeting and scamming our customers and prospective customers who were members of these groups. As an alternative to these groups, we have set up a customer service account on Facebook and a WhatsApp help line to improve communication with our customers/customer relation. Besides our Facebook account and WhatsApp help line, customers can always reach us through our traditional means of interaction which is our email address or our ever-active 24/7 live support chat.

Investors should please feel free to create personal social media groups with lesser members and lesser chances of getting infiltrated by scammers for the purpose of sharing ideas with their downlines and prospective downlines.
